

Welcome our daughter!

HOLEX USA

 **HOLEX USA**
A world of flowers
www.holexusa.com

Holex Flower B.V. continues to grow!
We are expanding into the United States by joining our salesman Mark Schrama with Cindy McPherson and her team (AFG Miami) to grow our family.

Holex USA will operate from Miami with the philosophy and tradition of Holex Flower B.V. based on service, on time delivery, innovation and quality for money. Flowers that meet our customer's expectations and requirements. The newborn will service supermarkets and our existing wholesale accounts with product sourced directly from many sources all over the world, as well as US domestic grown flowers. Dutch Flower Group sister companies based in Africa and South America are ready to start serving the US-market using direct flights from source to several airports

in the US. Dutch flowers will be sold from Holland as always, the Holex Flower team in Aalsmeer remains the US-market's eyes at the Dutch auctions as they have been for almost 30 years.

We believe this is a next step in the process of ongoing developments in global flower trade and a great tool to serve and help our customers better.

With the looks and properties of the parent we hope this daughter will make our lives even more colourful!
